

INTER – WINES TRADITION

Sustainable Denim Collection

CONCEPT NOTE

The collection seamlessly blends Indian tradition with modernity, merging sustainability with style. Drawing inspiration from **Kantha of Bengal, Gudri from Rajasthan, also inculcating embroidered Patchwork from Gujarat and Madhya Pradesh**, it offers a unisex range of smart corporate casual wear. Each meticulously crafted piece is fashioned from **discarded denim and industry waste cotton fabrics**, embodying a commitment to responsible fashion practices. By repurposing these materials, we not only reduce waste but also grant them renewed purpose. Rooted in the Indian legacy of preservation and conservation, the collection honors and empowers artisans and the traditional crafts passed down through generations. **It's a celebration of heritage, innovation, and conscious consumption showcasing the timeless beauty of Indian craftsmanship.** Whether in the boardroom or a casual meeting, these ensembles invite wearers to embrace style with purpose, where every thread narrates a tale of heritage, sustainability, and the spirit of India. In this collection focusing on ready to wear ensembles of trousers, shirts and jackets. In the available blue, black and white colors of discarded fabrics.

Sustainability

"Prioritizing and consciously working towards building a better future is what sustainable living is all about. It is a step-by-step process and time-consuming but the more you try involving green life within you; the greener will be the life around you"

INSPIRATION BOARD

Take care of yourself

In this ever increasing need to always be ahead in the rat race of life we often forget our most valuable asset – our health. Today's work culture is all about hustling, people are so busy staying afloat that sometimes in life they forget to actually live.

However ever since the pandemic hit home we have all been forced to slow down in our lives. Take life one step at a time and make conscious choices.

This collection is that warm hug you need at the end of a rough day. It strives to create a sense of balance and ease by contradicting the maximalist and herd mentality of the past and embracing a more minimalistic approach which helps one appreciate their individualism.

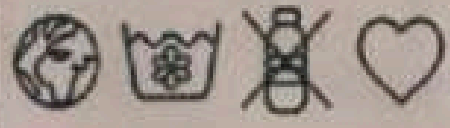

DO WHAT YOU LIKE.
LIKE WHAT YOU DO.

'RELAXED'

100% HOPE

'HOPEFUL'

'LAID-BACK'

When you
wear this, I'll
always be with
you.

A warm hug
made out of
cloth.

I love you.

Zero Waste Fashion: A New Sustainable Fashion Practice.

We all know the Fashion Industry creates massive amount of waste that negatively impacts the environment. We tried to incorporate the idea of zero waste fashion in this collection by using pre-existing clothing or other items and restructuring them into new garments. We have used unwanted, thrown and pre used jeans and upcycled it into a semi formal wear collection.
